## TRINITY RETREAT SCHEDULE 2010

### **Fr. Gene Fulton**

Topic: **The Priest – the centrality of Christ in his life leads to a correct valuation of ordained ministry.**

*Every priest is there in Persona Christi, not in his own charming or otherwise qualified personality. He is by the fidelity to Christ, His gospel, His Church and by the communion of deep prayer, put out into the deep with courage and there, in the midst of trials and difficulties, he experiences the greatness and joy of priestly mission. This retreat will attempt to strengthen these essential elements in the life of a priest.*

### **Fr. Benedict J. Groeschel, CFR**

Topic: **Rebuilding the priesthood with  
Pope Benedict XVI**

*The Church and the priesthood have been challenged by great cultural and even political changes in the last several decades. Now is not the time to go back but rather to restore the basic elements of the life of the priest: a renewal of sacramental life and of scriptural theology rather than criticism, a return to priestly service bringing people to virtue and a return to real prayer. This retreat is an attempt to strengthen these essential elements to the life of priests.*
